Topics/Themes:

- Enablement, Best Practice & Top Tips
- Product Demos
- Cloud Studio & API's
- Real-time Dashboards
- System Monitoring

TODAY'S SPEAKERS

PROFILES

Vito Salvaggio

SVP of
Product Management

Michael Bates

Sr. Product Manager
Cloud Studio, Marketplace

Will Clifford

Sr. Product Manager
Connectors

Tomydas Pall

Sr. Product Manager
Platform, APIM, MC, MQ,
OEM & Analytics

Blair Pzytula

Product Manager
EDI and eiCloud

Harmony Recent Enhancements

PM Team

June 2023

Recent Performance and Stability Enhancements

- Large Project Performance
 - Importing
 - Opening and editing
 - Auto-save
 - Transformation searches
 - Deployment
 - Smaller project exports
 - Deleting
- Stability
 - Target field name change retains custom scripting
 - Duplicate node issues
 - More widespread notification of editing conflict between collaborators
 - Script parser (fewer false positives and negatives)

Recent Usability Enhancements

- Usability
 - Mapping lines to conditional scripts
 - More state memory (expanded/collapsed UI elements)
 - Ability to edit hidden variables
 - Double-click to open component dependencies
 - Moved Connector Builder visibility to main menu
 - Added “Remove” activity to project history
 - Color coded operation status indicators
 - Transformation search refactor

Recent Feature Enhancements

- Undo/redo
- Operation log drawer
- Debug/verbose logging
- Comments and tags settings
- Resizable project pane
- Undeployed changes indicator
- Drag and drop between workflow tabs
- Global connections
- Copy/paste between projects (individual components)

Recent Connector Enhancements

- 100+ New Connectors
 - Now over 190 connectors
- Key Connector Enhancements
 - OAuth support
 - API version updates
 - Listener activity support
 - Editable schema support
 - Access to new endpoints
- Customer Priorities
 - 40+ Bugs
 - 30+ Enhancements

Recent Feature Enhancements

Platform Core

- Listener Framework (Single Agent and Multi-agent)
- Private Agent Only Connector Type
- Connector deployment automation
- SSO support for BMC Helix users (OEM)
- 'Reauthenticate on Change' – Org level feature for enhanced connector security
- Environment Class feature to segregate Production vs Non-Prod Environments
- Software Downloads Page – Redesign
- Audit Logging – enhanced with environment info

Message Queue (MQ)

- Jitterbit Message Queue Service (Public Beta)
- Jitterbit MQ Connector
- Multiple MQ tiers – Basic (free) and Premium (paid)
- MQ Usage Reporting

Recent Feature Enhancements

APIM

- Trusted IP Groups (enhanced IP Whitelisting)
- APIM Security – Extended CORS Support
- API Portal access for External users
- API Groups feature to create API collections for distribution and external user access
- API Gateway Upgrade for OpenResty for Security Compliance

Management Console (MC)

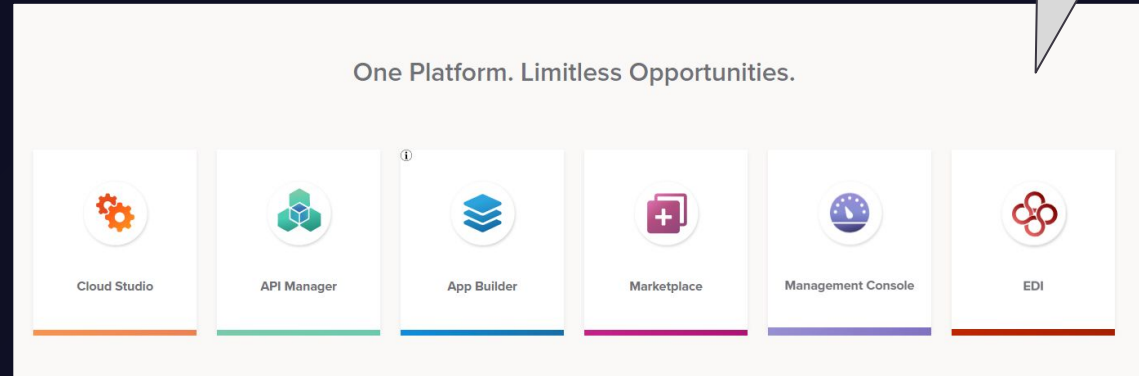

- Management Console Dashboard UX upgrade
- MC User Management page for API Portal access
- External user feature for easy setup of non-Harmony users
- Licensing Usage Reporting tile to view usage against purchased limits

Coming Soon

New Tile

July 2023

- EDI Admin and Transactions panels
- AS2 Connection Support
- Pagination
- Child Messages
- Messaging

Create Custom Applications Fast with Low Code

Vinyl makes it easy to build scalable, end-to-end apps that can be easily integrated with new and existing systems.

- Use guided development, drag-and-drop functionality, and visual rule builders
- Create fully integrated, bi-directional applications
- Integrate your entire ecosystem without impacting source data.
- Protect your apps with enterprise-grade security
- Integrate real-time data
- Deploy apps on your enterprise cloud, on-premise or hosted

Other Ways to Get Help from Jitterbit

Interested in any of the following ⇒ Please reach out to your CSM:

- Learn more about our Solutions (Integration, Automation, App Building with Vinyl, & EDI)
- Best Practices session with Customer Success Architect (CSA)
- Health Check review with CSA
- Architecture assessment with CSA
- Working session with CSA for Jitterbit examples and/or development activities
- CSA office hours every Wednesday @ 10am Pacific Time
- Customer workshops or customized training with CSA or TAM (customized to your use cases)
- **Contact:**
 - <https://success.jitterbit.com/>
 - Unsure who your CSM is ⇒ email Success@jitterbit.com or phil@jitterbit.com
